

LAKE OR STREAMBED ALTERATION FEE SCHEDULE

The Department may refuse to process a notification or a request for an extension or amendment until the department receives the proper fee or fees.

STANDARD AGREEMENT

Any agreement other than an agreement for gravel, rock, or sand extraction, an agreement for timber harvesting, an agreement for routine maintenance, a master agreement, or a master agreement for timber operations.

Fee:

If the term of the agreement is 5 years or less.

For each project the agreement covers:

\$200 if the project costs less than \$5,000.

\$250 if the project costs from \$5,000 to less than \$10,000.

\$500 if the project costs from \$10,000 to less than \$25,000.

\$750 if the project costs from \$25,000 to less than \$100,000.

\$1,100 if the project costs from \$100,000 to less than \$200,000.

\$1,500 if the project costs from \$200,000 to less than \$350,000.

\$2,250 if the project costs from \$350,000 to less than \$500,000.

\$4,000 if the project costs \$500,000 or more.

Project cost means the cost to complete each project for which notification is required.

As a general rule, a notification for a standard agreement should identify only one project. If an entity chooses to identify more than one project in a single notification, the department may require the entity to separately notify the department for one or more of the projects included in the original notification based on their type or location.

If the notification includes more than one project, the fee shall be calculated by adding the separate fees for each project. For example, if a notification identifies three projects, one of which will cost less than \$5,000 to complete, one of which will cost \$7,500 to complete, and one of which will cost \$17,500 to complete, the fee for the first project would be \$200, the fee for the second project would be \$250, and the fee for the third project would be \$500. Hence, the total fee the entity would need to submit with the notification that identifies those three projects would be \$950.

An entity may not obtain a standard agreement for any project identified in the notification that qualifies for an agreement for gravel, rock, or sand extraction, an agreement for timber harvesting, an agreement for routine maintenance, a master agreement, or a master agreement for timber operations unless the department agrees otherwise.

Fee submittal: If the entity requests an agreement with a term of 5 years or less, the fee specified in the category for agreements with a term of 5 years or less must be submitted with the notification.

If the entity requests an agreement with a term longer than 5 years ([Standard Long-term Agreement](#)) the fee specified must be submitted with the notification.

STANDARD LONG-TERM AGREEMENT

Any agreement other than an agreement for gravel, rock, or sand extraction, an agreement for timber harvesting, an agreement for routine maintenance, a master agreement, or a master agreement for timber operations.

Fee:

If the term of the agreement is longer than 5 years.

\$2,400 base fee, plus

For each project the agreement covers:

\$200 if the project costs less than \$5,000.

\$250 if the project costs from \$5,000 to less than \$10,000.

\$500 if the project costs from \$10,000 to less than \$25,000.

\$750 if the project costs from \$25,000 to less than \$100,000.

\$1,100 if the project costs from \$100,000 to less than \$200,000.

\$1,500 if the project costs from \$200,000 to less than \$350,000.

\$2,250 if the project costs from \$350,000 to less than \$500,000.

\$4,000 if the project costs \$500,000 or more.

\$250 for each project the agreement covers, and

\$2,500 annual fee

Fee submittal: The base fee specified in paragraph (1) at a minimum must be submitted with the notification. The balance of all fees due must be paid prior to the issuance of the agreement.

An example of a project for which the department would issue a master agreement is a large-scale development proposal comprised of multiple projects for which specific, detailed design plans have not been prepared at the time of the original notification. The master agreement will specify a process the department and entity will follow before each project begins and may identify various measures the entity will be required to incorporate as part of each project in order to protect fish and wildlife resources.

As a general rule, the process specified in the master agreement will require the entity to notify the department before beginning any project the agreement covers and submit a fee based on the cost of the project. After the department receives the notification, it will confirm that the master agreement covers the project and propose measures to protect fish and wildlife resources in addition to any included in the master agreement, if such measures are necessary for the specific project.

A master agreement will typically, but not always, encompass one or more watersheds and/or relate to a habitat conservation plan or natural community conservation plan. By contrast, if the large-scale development proposal is comprised of, for example, multiple residences, golf courses, and associated infrastructure projects for which specific, detailed design plans have been prepared by the time the entity notifies the department and the entity is ready to begin those projects, the department would issue the entity a standard agreement.

A minor amendment is one that would not significantly modify the scope or nature of any project covered by the agreement or any measure included in the agreement to protect fish and wildlife resources.
